

# SIZING CHART - SHELLPANTS

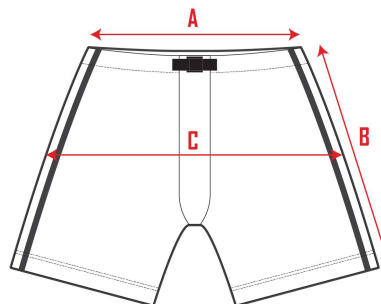

## SIZE CHART

### Measurement in Inches

**How to measure :**

1. Best to measure and compare against an actual pair of shell pants and choose a corresponding size from our size chart (or up / down a size as required)
2. If you don't have shell pants, you can measure against your existing hockey pants. Note, the side length is the most important measurement. Measure your hockey pants from the waistline down to the bottom of the pants (not including the lower back / stomach protection area above the waist), then choose a corresponding size.

### Shell Pants (Player)

Adult (Unisex)	AS	AM	AL	AXL	A2XL
